

**EARTH DAY SYMPOSIUM**  
**APRIL 22**  
**6-9 PM**  
**UNO**

# **PUBLIC POWER** **and the evolving electric** **utility business environment**

The utility business environment is challenged on multiple fronts – new energy efficient technologies reduce revenues, evolving renewable energy technologies disrupt existing infrastructure, changing environmental regulations impact fuel supply considerations, shifting customer expectations provoke new conversations. Nebraska public power utilities strive to deliver safe, reliable, low-priced power for everyone amidst these challenges.

## **JOIN US TO**

- Kick start a discussion of the Utility Business Model 2.0 for Nebraska.
- Explore the current business model of public power in Nebraska
- Compare and contrast Nebraska with what other states are doing
- Participate in a brainwriting exercise to identify current utility characteristics we would not change and those we would.

## **PRESENTATIONS BY**

**Kevin Wailes**, administrator and CEO, Lincoln Electric System

**Karl R. Rábago**, executive director, Pace Energy and Climate Center, Pace Law School

## **WHO SHOULD ATTEND**

- Business students
- Managers and board members of Nebraska utilities
- Nebraska policy makers
- Professional organizations
- Interested citizens, advocacy and community groups

**APRIL 22, 6-9 PM**

Mammel Hall Auditorium, UNO College of Business Administration (CBA)
